

CITGO RAILROAD CURVE GREASE

Date 04/16

DESCRIPTION: CITGO Summer Railroad Curve Grease No. 1 and CITGO Winter Railroad Curve Grease No. 0 are Anhydrous Calcium thickened greases formulated with graphite to provide outstanding wear resistance.

QUALITIES: Excellent Flow Characteristics: CITGO Railroad Curve Grease has a smooth buttery texture that provides exceptional spray characteristics. CITGO Railroad Curve Grease sprays through the applicator nozzle in a consistent spray to coat the rail sides with a highly wear resistant film. The smooth consistency enables the product to flow through the applicator without clogging and without flow interruptions.

Outstanding Wear Protection: This product contains graphite to provide outstanding wear protection to the rail curves.

Water Resistance: CITGO Railroad Curve Grease is extremely resistant to water. This grease adheres to the rail, even in humid and rainy environments.

APPLICATIONS: CITGO offers two version of this product. CITGO Summer Railroad Curve Grease No. 1 stays in place during the harsh summer weather and CITGO Winter Railroad Grease No. 0 provides improved flow during the colder winter conditions. Both provide outstanding protection to the application.

Consult owner’s manual for proper lubricant selection.

TYPICAL PROPERTIES:

CITGO RAILROAD CURVE GREASE

| | SUMMER RAILROAD CURVE GREASE NO. 1 | WINTER RAILROAD CURVE GREASE NO. 0 |
|-------------------------------|---|---|
| NLGI Grade | 1 | 0 |
| Material Code | 655532001 | 655531001 |
| Worked-60 Penetration | 310-340 | 355-385 |
| Grease Type | Anhydrous Calcium | Anhydrous Calcium |
| Color | Gray | Gray |
| Texture | Smooth, Buttery | Smooth, Buttery |
| Solid Additives | Graphite | Graphite |
| Pour Point, °F | -29 | -29 |
| Base Oil Viscosity: 40°C, cSt | 20 | 20 |
