CITGO Railroad Curve Grease

OVERVIEW
- Available as Summer Railroad Curve Grease No. 1 and Winter Railroad Curve Grease No. 0.
- Anhydrous calcium thickened greases formulated with graphite provide outstanding wear resistance.

FEATURES & BENEFITS
- Smooth, buttery texture provides exceptional spray characteristics.
- Spray consistently through the applicator nozzle to coat the rail sides.
- Graphite provides outstanding wear protection.
- Anhydrous calcium thickener is extremely resistant to water, adhering to the rail, even in humid and rainy environments.

APPLICATIONS
- Summer Railroad Curve Grease No. 1 stays in place in harsh summer weather.
- Winter Railroad Curve Grease No. 0 provides improved flow during colder winter conditions.
- Both provide outstanding rail curve wear protection.
- Refer to equipment owner’s manual for proper lubricant recommendation.
