DESCRIPTION: The CITGO SynDurance product line represents the latest in technology using synthetic PAOs in greases and is recommended for extended service applications; reducing operating costs and extending component life. The CITGO SynDurance Premium Synthetic 460 Greases are available in two NLGI Grades: #00 and #2.

The CITGO SynDurance Premium Synthetic 460 Grease #2 has superior water washout and spray off resistance, and is designed to prevent corrosion in fresh and sea water conditions. This is particularly important when exposed to corrosive anti-icing agents and water spray conditions.

The CITGO SynDurance Premium Synthetic 460 Grease #00 is specifically engineered for trailer wheel-ends operating under a wide range of conditions. It can also be utilized in industrial gear boxes where operating temperatures are high, where conventional semi-fluid grease will not produce adequate lubricant life. Both NLGI Grades offer performance in demanding conditions of high and low temperatures, and offer the potential for energy savings and reduction in operating temperatures.

Fully additized to provide superior extreme pressure (EP) and anti-wear characteristics, it is inhibited to resist corrosion and oxidation.

APPLICATIONS: The CITGO SynDurance Premium Synthetic 460 Greases are compatible with conventional lithium and lithium complex greases. They contain extreme pressure (EP) additives and provide superior corrosion protection. Consult owner's manual for proper lubricant selection.

The CITGO SynDurance Premium Synthetic 460 Grease #2 satisfies a wide range of industrial applications including:

- **Industrial Gear Boxes**
- **Paper Mills**
- **Industrial Bearings**
- **Heavy Duty Commercial On Road Fleets**
  - Fifth Wheels
  - Kingpins
  - Pins and Bushings
  - Trailer Landing Gear Boxes
- **Heavy Duty Off Road**
  - Dozers
  - Scrapers
  - Backhoes
  - Cold Planers
  - Forklifts
  - Excavators
  - Compactors
  - Forest Machines
  - Cranes
  - Loaders
  - Paving
  - Articulated Trucks
- **Agriculture**
  - Implements
  - Tillage
  - Planting And Seeding
  - Sprayers And Spreaders
  - Tractors
  - Hay Balers
  - Harvesting
  - Utility Vehicles
  - Combines
  - Mowers
  - Skid Steers
- **Automotive Applications**
  - Wheel Bearings**
  - Chassis**

**The CITGO SynDurance Premium Synthetic 460 Grease #2 meets the NLGI Service Classification of GC-LB and displays the NLGI Certification Mark as an Automotive Wheel Bearing and Chassis Lubricant.

The CITGO SynDurance Premium Synthetic 460 Grease #00 is recommended for use in trailer wheel ends, implement gear boxes, motorized wheelchair gear boxes as well as motorized conveyor gear boxes. It flows smoothly and evenly at temperature extremes from -40°C up to 190°C with appropriate re-lubrication intervals.**
CITGO SYNDURANCE® PREMIUM SYNTHETIC 460 GREASES
