

CITGO CIM LUBRICANT 1 GREASE

Date 08/13

DESCRIPTION: CITGO CIM Lubricant 1 Grease is a Calcium Stearate lube formulated with a proprietary dispersion that provides a solid film lubricant barrier. The consistency allows for the ease of application either by wiping or brushing onto the hot metal surfaces while the Calcium Stearate lube provides metal adhesion.

APPLICATIONS: CITGO CIM Lubricant 1 Grease provides a barrier between metal parts to resist sticking together; it can also be used on sliding surfaces to reduce metal seizure on slides and guides. It can also be used as a mold release in a variety of applications.

TYPICAL PROPERTIES:

CITGO CIM LUBRICANT 1 GREASE

Material Code	655106001
Thickener	Calcium Stearate
Texture	Smooth, Buttery
Color, Observed	Grey
Worked 60 Penetration, D-217	325-345
Dropping Point, D-2265, ° F (°C) Min.	215 (102)
OIL CHARACTERISTIC:	
Viscosity Grade.	ISO 32
