

# CITGO Cotton Picker Spindle Grease

## OVERVIEW

- A unique semi-fluid formula developed to provide exceptional flow performance.
- Optimized to provide consistent flow for optimal protection of picker spindles.
- Properly lubricated spindles can operate at peak performance, plucking cotton from bolls without tearing.

## FEATURES & BENEFITS

- Special semi-fluid, lithium-based grease that provides low friction and channeling resistance.
- Flows freely, but resists excessive leakage from spindle bearings.
- Performs well over a wide temperature range resulting in low cold-weather starting torque.
- Soft consistency, channel-resistant.
- Resists leakage from bearings reducing cotton staining.
- Easy to dispense or pump.

## APPLICATIONS

- For use in low to normal temperatures under light loads.
- Refer to equipment owner's manual for proper lubricant recommendation.

## PROPERTIES

### Typical Properties for CITGO Cotton Picker Spindle Grease:

Material Code	655773001
NLGI Grade	00
Thickener Type	Lithium Stearate
Color	Light Green, Low Staining
Texture	Smooth, Short Fiber
Worked Penetration, ASTM D217	400-430
Approximate Temperature Range, °F(°C)	5 to 200 (-15 to 93)
Base Oil Viscosity @ 40°C, cSt	20
