

CITGO COTTON PICKER SPINDLE GREASE

Date 03/18

DESCRIPTION: CITGO Cotton Picker Spindle Grease is a unique semi-fluid formula developed to provide exceptional flow performance. It is optimized to provide consistent flow for optimal protection of the picker spindles. This fluidity allows it to lubricate in tough applications. Properly lubricated spindles can operate at peak performance, plucking cotton from bolls without tearing.

- FEATURES:**
- Special semi-fluid, lithium-based grease that provides low friction and channeling resistance
 - Flows freely, but resists excessive leakage from spindle bearings
 - Performs well over a wide temperature range resulting in low cold-weather starting torque
 - Soft consistency, channel resistant
 - Resists leakage from bearings reducing cotton staining
 - Easy to dispense or pump

APPLICATIONS: For use in low to normal temperatures under light loads. Consult owner's manual for proper lubricant selection.

TYPICAL PROPERTIES:

CITGO COTTON PICKER SPINDLE GREASE

NLGI Grade	00
Material Code	655773001
Thickener Type	Lithium Stearate
Texture	Smooth, Short Fiber
Color, Observed	Light Green, Low-Staining
Worked Penetration, ASTM D217	400-430
Approximate Temperature Range, °F (°C)	5 to 200 (-15 to 93)
Base Oil Viscosity: 40°C, cSt	20
