DESCRIPTION: This Full Synthetic, Continuously Variable Transmission Fluid is specifically formulated to prolong and protect transmission life in modern high technology belt and chain-driven CVT transmissions. It helps maintain smooth operation, reduces transmission wear and degrades less over time.

QUALITIES:
- Maintains viscosity control over the life of the fluid for smooth shifting and fuel economy.
- Prevents wear in metal contacts while maintaining the proper frictional values to transfer high levels of torque and prevent shudder.
- Excellent oxidation control to maximize fluid life and maintain chemical properties.

APPLICATIONS: CITGO TRANSGARD CVT Fluid is recommended for use in most foreign and domestic belt and chain-driven CVT transmissions and is suitable for use in the following vehicles where CVT Fluid is recommended:

- Audi/VW TL52180, G052180, G052516
